HAITHEM MEDDEB

DevOps Engineer | Cloud Infrastructure

Nabeul, Tunisia | meddebhaithem10@gmail.com | +216 94 573 501 | LinkedIn | GitHub | Portfolio

Profile

DevOps Engineer with hands-on experience in **CI/CD pipeline design**, **containerization**, **cloud infrastructure**, and **automation engineering**. Proven expertise in **Docker**, **Kubernetes**, **GitHub Actions**, and **Azure** deployment. Strong background in building scalable, resilient systems through infrastructure-as-code, deployment automation, and monitoring solutions. Experienced in **Linux administration**, **networking**, and **DevOps toolchains** for enterprise environments. Passionate about operational excellence, infrastructure optimization, and enabling development teams through robust automation.

Professional Experience

Software Engineer (Freelance) **Jan. 2026 – Present**
Scalnet — Bardo, Tunisia

- Architected and deployed **scalable backend infrastructure** using containerized services and cloud platforms
- Implemented **CI/CD automation** and deployment pipelines for production-grade systems
- Optimized application deployment, reliability, and infrastructure orchestration for enterprise clients

Full Stack Developer Intern **Jul. 2025 – Dec. 2025**
ESPRIT TECH — Ghazela, Tunisia

- Developed **backend services and REST APIs** with focus on scalability and performance optimization
- Collaborated on **containerized application architecture** using Docker and microservices patterns
- Built production-ready systems using **Node.js, Spring Boot, Python, and React**

DevOps Engineer Intern **Jul. 2024 – Sept. 2024**
Sofrecom Tunisia — Lac 1, Tunisia

- Designed and implemented **CI/CD pipelines** using **GitHub Actions** for automated testing and deployment
- Containerized applications using **Docker**, reducing deployment time and improving consistency
- Configured **infrastructure automation** and improved deployment reliability for telecom systems
- Managed application deployments and infrastructure workflows across multiple environments

Software Developer Intern **Jul. 2023 – Aug. 2023**
Tunisie Telecom — Nabeul, Tunisia

- Developed backend systems and optimized database queries, improving performance by **40%**
- Applied software engineering best practices for reliability and maintainability

Education

ESPRIT – Private Higher School of Engineering and Technology — Ghazela, Tunisia **2020 – 2025**
Engineering Degree in Software Engineering

Philipps-Universität Marburg — Marburg, Germany **2025 – 2026**
Freemover Semester (Computer Science)

Hochschule Schmalkalden – University of Applied Science — Schmalkalden, Germany **2024 – 2025**
Exchange Semester (Computer Science)

Technical Skills

DevOps & Cloud : Docker, Kubernetes, Azure, GitHub Actions, Jenkins, **CI/CD Pipelines**, Infrastructure as Code
Infrastructure : Linux Administration, Networking, Cloud Deployment, Container Orchestration, Server Configuration
Automation Tools : GitHub Actions, Jenkins, Ansible, Terraform
Monitoring & Logging : Application Performance, Logs Management, System Monitoring
Backend Development : Node.js, Java, Spring Boot, Python, REST APIs, Express.js
Databases : PostgreSQL, MySQL, MongoDB, SQL Server
Version Control : Git, GitHub, GitLab, Branching Strategies

Languages

French (fluent) | English (fluent) | German (intermediate) | Spanish (intermediate)

Additional Information

Volunteer Experience : AIESEC Tunisia | Securinets ESPRIT
Certification : IELTS (English Proficiency) | Honoris Sustainability Work Ethics & Gender Equity Certificate
